

TERMINAL CITY To Premiere On The Sundance Channel France

Wednesday, February 10, 2010

VANCOUVER, Feb. 5 – Digital Rights Group (DRG) is pleased to announce the sale of the highly acclaimed 10 Part Series **TERMINAL CITY** to the recently launched **Sundance Channel France**.

TERMINAL CITY, originally produced for TMN, MC and CHUM, has had a strong and steady sales run following its initial launch. A perennial seller, **TERMINAL CITY** has sold strongly in Latin America, Northern Europe, and the US. This current sale to the often tough to crack French market further confirms the evergreen quality of the series.

A hit in Canada and the US, where its writing and acting were critically compared to *Six Feet Under*, Angus Fraser's witty and challenging drama series bravely examines life and death of a reality TV star.

TERMINAL CITY was produced by Angus Fraser and Jayme Pfahl, who have recently formed a new entertainment company called **GANG OF 2 PRODUCTIONS**. **GANG OF 2** are invested in producing top quality television series and feature films and are looking to raise the bar for dramatic stories with each new project.

Patrick Roberts, Vice President of International Sales, sees international potential from **GANG OF 2** and is excited by the opportunity to work with them on similar quality productions in the future: "We're delighted that Sundance have picked up this fantastic series for their international channels, Terminal City handles a difficult subject matter with unusual honesty and humour."
